

404 - Volunteer Program

People at times will volunteer to help at the Library, and we welcome their willingness to help. Employees are encouraged to maintain a list of projects that would assist them in performing their jobs more effectively, and thus to utilize any volunteer who might offer their services. It is recommended that a regularly scheduled volunteer be of an age eligible for employment. In order to have contact information, it is requested that all volunteers complete a Volunteer Application. Form is located on page 44.
